

# DIONYSUS

WORLDWIDE COLLABORATION FOR HDFN

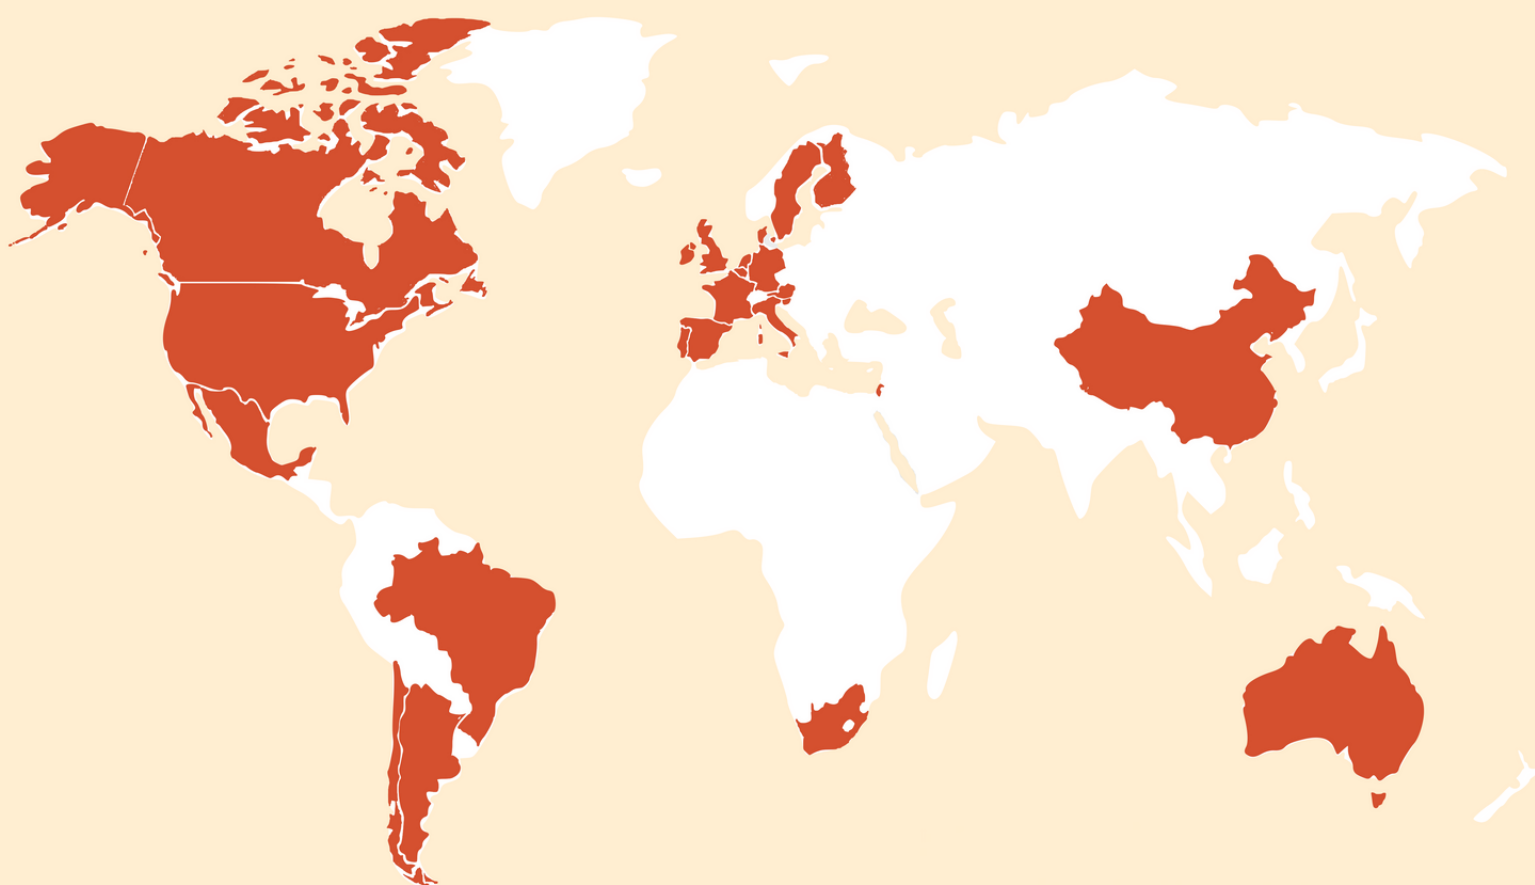

## A study progress update

May 2022

**24 countries**

**36 centers**

In this first edition of the DIONYSUS newsletter we are happy to announce that clinicians and researchers from 36 centers from 24 countries are involved in making this study happen!

### Data collection

The first 10 centers have entered records into the database and have collectively created

**500 cases**

7 other centers are (almost) ready to start data entry

We will be maintaining contact with the other centers to hopefully start data collection soon!

#	Center
17	Medical University Graz
69	UZ Leuven
3	Shanghai First Maternity and Infant Hospital
1	Hôpital Armand-Trousseau Paris
39	Sheba Medical Center, Tel Aviv
58	"Vittore Buzzi" Children's Hospital, Milan
147	Leiden University Medical Center
5	University Medical Center Ljubljana
1	Stellenbosch University
159	Karolinska Institutet, Stockholm

# Thank you to everyone involved!

Karolinska Institutet, Sweden, Eleonor Tiblad, Kajsa Bohlin and Iris Hellsing

University Medical Center Ljubljana, Slovenia, Jana Lozar Krivec, Matej Trdan and Tanja Premru- Sršen, Lilijana Kornhauser-Cerar, Vita Mesarič

The Queen Elizabeth Hospital Glasgow, Scotland, Marie Anne Ledingham, Janet Brennand

University Hospital KU Leuven, Belgium, Roland Devlieger, Anne Debeer and Sarah Verbeeck

Children's Hospital "Vittore Buzzi" Milan, Italy, Mariano Matteo Lanna, Francesco Cavigioli

Instituto Fernandes Figueira, Rio de Janeiro, Brazil, Maria Cristina Pessoa dos Santos, Cynthia Amaral, Bebeth Moreira, Fernando Maia Peixoto Filho

Sheba Medical Center Tel Aviv, Israel, Yoav Yinon

Clínica Universidad de los Andes, Santiago, Chile, Sebastián Illanes, Pilar Diaz

The Mother Baby Center at Abbott Northwestern and Children's Minnesota, USA, Saul Snowise, Andrea Lampland

Copenhagen University Hospital Rigshospitalet, Denmark, Emilie Thorup Nielsen, Olav Bennike Bjørn Petersen, Frederik Clausen and Morten Dziegiel

Shanghai First Maternity and Infant Hospital, People's Republic of China, Luming Sun and Ming Zhou

Sant Pau Hospital, Barcelona, Spain, Juan Parra, Eli Moliner, Enric Casanovas and Obdulia Alejos Abad

Stellenbosch University, South-Africa, Lut Geerts, Lizelle van Wyk and Kerry Rademan

Instituto Nacional de Perinatologia Mexico City, Mexico, Alejandro and Raigam Jafet Martínez Portilla

The Rotunda Hospital Dublin, Ireland, Fergal Malone, Jen Donnelly, Etaoin Kent, Zara Molphy and David Mackin

Helsinki University Hospital, Finland, Vedran Stefanovic, Susanna Sainio and Riina Jernman

Pränatal Medizin München, Germany, Karl-Philipp Glöning and Alexander Hohnecker

Hospital La Paz Madrid, Spain, Eugenia Antolín, Marta Mencia Ybarra Zavala, Aurora Llorente Viejo

Mount Sinai Hospital Toronto, Canada, Rory Windrim, Greg Ryan, Evangelia Vlachodimitropoulou Koumoutsea

Hospital Italiano de Buenos Aires, Argentina, Lucas Otaño, César Meller, Gonzalo Luis Mariani

Hôpital d'Enfants Armand-Trousseau Paris, France, Paul Maurice and Jean-Marie Jouannic

Clinica Las Condes, Santiago, Chile, Waldo Sepulveda

Medical University of Graz, Austria, Philipp Klaritsch, Katharina Eisnecker

Mater Mothers' Hospital, Brisbane, Australia, Helen Liley and Glenn Gardener

Seattle Children's Hospital, USA, Bettina Paek and Martin Walker

Children's Memorial Hermann Hospital, Houston, USA, Eric Bergh and Anthony Johnson

University of Birmingham, UK, Mark D Kilby, James Castleman, Leo Gurney

St. Michael's Hospital Bristol, Rachel Liebling and Timothy Overton

Levine Children's Hospital, Charlotte, USA, Matthew Saxonhouse

Universitätsklinikum Gießen, Germany, Ivonne Bedei, Roland Axt-Flidner, Aline Wolter, Rahel Schuler

São João Hospital, Porto, Portugal, Alexandra Matias and Joana Nunes

St George's University Hospital, UK, Smriti Prasad and Asma Khalil

Liverpool Women's Hospital, UK, Borna Poljak and Asma Khalil

Universitätsklinikum Bonn, Germany, Annegret Geipel and Johanna Rath

Uniklinik Köln, Germany, Christoph Berg

Charité - Universitätsmedizin Berlin, Germany, Beate Mayer, Christoph Dame and Stefan Verlohren

Leiden University Medical Center and Sanquin Diagnostics & Sanquin Research, The Netherlands, Derek de Winter, Joanne Verweij, Carolien Zwiers, Dick Oepkes, Masja de Haas, Ellen van der Schoot and Enrico Lopriore.
